The print edition is out of stock for now.

The printed copies have all gone out the door, and I am so grateful to every one of you who made room for this book on your shelf. I don't have a restock date to share just yet, and I would rather tell you the truth than make you a promise I can't keep.

If you're ready to begin, the digital edition is waiting for you right now. It holds every word, every Dojo Reset, and all of the heart that went into the printed page, so you don't have to put your training on pause while the presses catch up.

The Therapeutic Dojo—Create the Life You Want to Live®
